2. BC TRANSIT RIDERSHIP STATISTICS FOR ROUTE 63—OTTER POINT LOOP

September 5, 2011 marked the fifth anniversary of the B.C. Transit community bus service through Otter Point (Route 63). The Otter Point & Shirley Residents & Ratepayers Association newsletter contacted B.C. Transit to find out how well it was being used and if there are any changes planned to the service.

The route originates in Sooke and travels west along Otter Point Road to Kemp Lake Road then down Kemp Lake Road to West Coast Road and back to Sooke. The community bus does two morning and two afternoon loops (Monday to Friday) through Otter Point. There is a second route (Route 66) traveled by the same bus from Sooke to East Sooke. Sun River was added to the East Sooke loop last year; no changes are planned for the Otter Point loop.

According to B.C. Transit, based upon a fall 2010 passenger count, the community bus carried approximately eight passengers per trip on the Otter Point loop. This figure is up from an average of six passengers per trip in 2009.

One of the frequently mentioned problems with the Otter Point bus service is that it doesn't operate early enough in the morning or late enough in the afternoon to accommodate regular transit users who commute to Victoria. The East Sooke loop provides this service. The **Otter Point Official Community Plan Review** and the **Otter Point, Shirley & Jordan River Developing a Strategic Vision** project identified numerous changes that residents would like to see made to improve local transit service, including:

- Adding a route to Gordon's Beach and eventually to Shirley.
- Two-direction service in Otter Point.
- Extending Handy Dart service to Shirley.
- Bus stop pull offs

BC Transit wants to hear from you about their service. You can direct your comments regarding their service to the transit future section of their website: <http://www.transitbc.com/regions/vic/>

3. FIRE SEASON IN SHIRLEY AND OTTER POINT

We have come through a short but very dry summer with numerous fires in our community. For example, the Shirley Fire Department had four brush fires, two structure fires (at the same time) and many Mutual Aid calls with the Otter Point, Sooke, East Sooke, Colwood and Metchosin fire departments. In addition to the fires, there were the usual highway accidents and during the Sooke Triathlon there were several bicycle accidents in Jordan River with one person severely injured.

Now that the cooler and wet weather is returning it will soon be time to resume open burning. The following information is from the Otter Point Fire Department web site: www.otterpointfire.bc.ca. Similar regulations apply to the Shirley Fire Protection District. Contact your local fire department for further details.

Fire season is April 1 to October 31.

The season may be extended at the discretion of the Fire Chief.

Class 'A' and class 'B' fires require a permit from the fire department. See below for definitions of Class 'A' and 'B' fires.

Feel good about your latte. Purchase a [Lighthouse Latte](#) at The Stick.* There are just a couple of weeks left to participate in this community fundraiser. The Stick and the Sheringham Point Lighthouse Preservation Society have joined forces to help preserve the lighthouse and surrounding land at Sheringham Point in Shirley. You can purchase a special coffee, the Lighthouse Latte, created just for the Society by the folks at The Stick. And the best part is that all the proceeds go to saving the lighthouse.

5. OPSRRA DIRECTORS PRESENT AT MARINE TRAIL HOLDINGS PUBLIC HEARING

The directors of OPSRRA made a decision to speak at the September 6, 2011 session of the Marine Trail Holdings public hearing. Our participation was conditional on hearing from members about whether they supported this action. Fifty-one members replied to the request for comment by the September 6 deadline; 48 supported the directors speaking at the public hearing and 3 opposed. Another half dozen members replied after the deadline and indicated support for our participation. The full text of our submission is attached to this newsletter email.

6. MEETING WITH MP & MLA REGARDING GOVERNMENT SUPPORT FOR ADDING TO JUAN DE FUCA MARINE TRAIL

Representatives from the Juan de Fuca Community Trails Society and OPSRRA met with Randall Garrison our federal member of Parliament and John Horgan our provincial Member of the Legislative Assembly in August just before the Marine Trail Holdings public hearings. The purpose of this meeting was to:

- Follow up on a March 2011 letter from our two community groups, to our elected officials, requesting consideration for the private lands adjacent to the Juan de Fuca Marine Trail being purchased for parkland.
- Find out if there had been any recent developments about these controversial lands before the OPSRRA directors making a decision about speaking at the September 6 Marine Trail Holdings public hearing.
- Offer support to our elected officials if they needed evidence of local community commitment to the idea of adding lands between the Juan de Fuca Marine Trail and Highway 14 to buffer the existing park.

At the time of the August meeting, John Horgan was trying to arrange a meeting with the provincial minister responsible for parks. This meeting has since taken place and Minister Lake has said that provincial money to purchase the lands would not be available. Randall Garrison was aware of unspent federal money intended for new park acquisition; he continues trying to find out what the criteria would be to access this money and if a continuation of the West Coast Trail to join with the Juan de Fuca Marine Trail would qualify.

11. OTTER POINT OFFICIAL COMMUNITY PLAN REVIEW

The OPSRRA September newsletter reported on the Otter Point Official Community Plan (OCP) Review Committee work to date. Interested readers can review that material on the Juan de Fuca Electoral Area web site: http://www.crd.bc.ca/jdf/landuse/otterpoint_ocp.htm.

The Committee met again on September 22 to finalize its recommendations. The main remaining issue related to areas outside the Settlement Containment Areas and the new Otter Point Resource Lands. These areas currently consist of parcels zoned Rural A with a minimum lot size of 4 hectares (10 acres). The Committee voted to recommend that these lands have a 2 Ha (5 acre) density and a 1 Ha (2 1/2 acre) minimum lot size.

The Committee's recommendations, the goals it identified and the reports and submissions it received will now be used to produce a new draft OCP for Otter

Point which may be written by late 2011 or early 2012. The draft OCP will then be brought to the community for public comment.

The OCP review will be a topic at our December Membership Meeting and the OPSRRA Board will present a report. The Board would like to form a review committee to prepare the report to ensure that we have a good range of community input. Interested members can contact OPSRRA directors Wayne Fritz or Bob Phillips.
