## DEVELOPING A STRATEGIC VISION PROJECT BACKGROUND MATERIAL SUMMARY SHEET

### 1. Title

Prioritization of Significant Watersheds Draining to Sooke Bay, Sooke Inlet, Sooke Harbour and Sooke Basin

### 2. Location:

Arnie Campbell

### 3. Year Published:

1999

### 4. Brief Summary:

This report was prepared for the CRD. Its purpose was to:

- Identify all significant watersheds in the study area. Significant watersheds were defined as those that support or could potentially support fish populations and where aquatic environments contribute to the overall biodiversity of the watershed.
- Assess the value of the aquatic resources and the impacts of existing and potential development within these watersheds.
- Prioritize the watersheds where land use planning strategies and related inventories are most required.

### 5. Opinion on Relevance to Project:

This would be an extremely important document except for the fact that very few streams or wetlands in Otter Point and none in Shirley are identified and assessed.

### 6. Categories Covered:

Governance  Recreation  Economy   
Environment  Community Development

Others (Specify): \_\_\_\_\_

### 7. Reviewer:

Arnie Campbell
