

1. Title

Green Bylaws Toolkit for Conserving Sensitive Ecosystems and Green Infrastructure

2. Location:

Environmental Law Clinic Uvic et al, British Columbia

3. Year Published:

November 2007

4. Brief Summary:

Green Value Approach: social, economic, ecological, governance values all equal standing, in balance

- clarifies jurisdictions- who can do what
- issues: conservation zoning, density, covenants, watercourse protection
- mapping: identifying critical sites, sensitive habitat, community connectivity, remnant ecosystems, community watersheds, local heritage and access
- detailed case studies: Gibson's road design/Denman Island sub division/Courtney co-housing project

5. Opinion on Relevance to Project:

Excellent, practical source.

6. Categories Covered:

Governance Recreation Economy
Environment Community Development

Others (Specify): _____

7. Reviewer:

Veronica Diment March 2007
